

## TOKENOMICS – ARTÈ PARK PROJECT

**Reference Token:** JTV (JTV)

**Blockchain:** Solana

**Total Supply:** 1,000,000 JTV (fixed, no minting)

**Token Standard:** SPL Token (Solana)

**Tokens allocated to the Artè Park project:** 1,000,000 JTV have been made available to directly support the initial funding and adoption of the park.

---

### 1. TOKEN MISSION

JTV is the official financial vehicle for the development, implementation, and management of the Artè Park project. It serves as:

- a digital key to access exclusive content and real-world benefits;
- a decentralized fundraising tool through fractionalized and tokenized assets;
- a bridge between investors, sponsors, and users, enabling governance, profit sharing, and visibility.

---

### 2. TOKEN DISTRIBUTION (ALLOCATION)

Category	% Allocation	Amount JTV	Cliff / Lockup
Private Sale & Sponsor Round	20%	200,000	12-month lock, 24-month vesting
Public Offering (ICO)	10%	100,000	No lockup
Artè Park Development Fund	30%	300,000	Locked for 36 months, restricted use
Foundation & Social Impact	15%	150,000	Gradual unlock, 10% per quarter
Team & Advisor	10%	100,000	12-month cliff, 36-month vesting
Liquidity & Exchange Pools	10%	100,000	Unlocked at launch
Reserve & Treasury	5%	50,000	Governed by treasury protocol

---

### 3. TOKEN UTILITY

-  Exclusive access to Artè Park events (openings, performances, exhibitions)
  -  Priority booking for conference rooms, workshops, and artistic experiences
  -  Discounts on shop items and exclusive NFTs from the Artè Park Collection
  -  Participation in governance for cultural and social initiatives under JTV Foundation
  -  Creative staking: JTV holders may delegate tokens to support emerging projects in ARTÈ LAB
  -  Indirect profit-sharing: part of revenues from NFTs, ticketing, and hospitality used for token buybacks or redistribution
-

## 4. ECONOMIC SUSTAINABILITY MECHANISMS

Buyback Program: a percentage of park revenues will be used to repurchase JTV on the open market to support value

Token Burn Events: tokens will be burned upon reaching specific milestones (e.g., openings, construction phases)

Planned Liquidity Injection: liquidity fund will be enhanced through NFT drops and tokenized assets (e.g., real estate, artworks)

---

## 5. GOVERNANCE

Progressive DAO structure (weighted voting for holders >10k JTV)

Voting on cultural, artistic, CSR, and financial themes (e.g., fund allocation)

Proposal submission and access via JTV Foundation app

---

## 6. FUNDRAISING STRATEGY

Token-based fundraising target (2025–2026): €15,000,000 equivalent

Accepted contributions in JTV, USDC, SOL

Available participation models:

- ▶ JTV NFT fractional packs (Artè Park collections)
  - ▶ Sponsored membership agreements (with token rewards)
- 

## 7. MONITORABLE KPIs

Number of unique park visitors (tracked via tokenized access)

Volume of NFTs sold linked to Artè Park

JTV tokens in circulation vs locked

Average transaction value in JTV on DEX/CEX

DAO engagement and governance participation

---

## CONCLUSION

The tokenomics of Artè Park positions JTVAULT (JTV) as a hybrid cultural-financial asset, blending the tangible impact of art and architecture with the scalability and transparency of blockchain. Investors do not simply support a symbolic project — they participate in a liquid, measurable, and shared ecosystem.
